## Projects

### Animation & Unity Game Development

[Link to 1 minute Showreel](#) - Provides an overview of GameJams and award-winning shorts where I played a key role in design, animation, rigging, modeling, UI, programming, and integrations.

### Habitica Chrome Extension

[Link to the extension](#) - Developed everything, from design and programming to API integration, UI/UX, and customer support, including managing bug reports on GitHub, to create the extension from start to finish.

*10K+ Chrome users, 4.8 stars from 146 reviews.*

### Bezalel Screening App for Exhibition

[Link to the app](#) - Programmed and integrated UI following provided design, ensuring functionality and mobile compatibility.

### Blender Pipeline plug-in

[Link to the plugin](#) - Coded a Blender tool for teamwork on my graduation film, supporting version control and pipeline management.

## Work Experience

### QA & Customer Support, Fast Simon Inc, Haifa

2015 - 2017

Quality Assurance and Zendesk Support

### Front End Web Developer, Fast Simon Inc

2019 - Present

Innovated front-end solutions for enhanced user experiences. Developed dashboard features, enhancing data visualization and interaction. Used JS, TypeScript, HTML, CSS for responsive web interfaces. Collaborated for seamless front-back integration.

## Military Service

### Systems technician at 8200

September 2011 - 2014

Received excellence award. Problem solver under pressure. Swiftly addresses technical failures. Quick learner for advanced concepts. Proficient in CMD scripting.
